Subject: Checking in

I hope you had a great holiday weekend. I thought I would check to make sure you received everything I sent out on Friday including the two monthly reports (OU-1 and Preconstruction work), the Air Plan and the Isolation Barrier Alternatives Analysis. Sorry about loading up your inbox. You should also have received a hard copy that includes a compact disk with a complete digital version of the IB Alternatives Analysis. If for some reason you did not receive all of these, let me know. Thanks.
